

Turn Wishlist Intent into Revenue Growth

Hi Marketing Team at *proudpatriots.com*,

Shoppers love wishlists — but wishlists alone don't grow your sales.

At Swym, we help you turn wishlisted intent into real revenue by making it easy for your shoppers to:

- Save the products they love
- Get timely reminders when prices drop, stock is low, or products come back in stock
- Complete their purchase at the perfect moment

Our smart wishlist solutions integrate seamlessly with your store, giving you tools to nudge shoppers through email or SMS, based on real-time changes and their shopping behavior.

To show you what's possible, here are five examples of personalized nudges you could send to your shoppers, each tailored to boost engagement and drive conversions.

And yes, each and everyone of these is highly customizable to fit your brand and your shoppers.

Let's turn your shoppers' intent into your next revenue win.

— The Swym Team
